Dear Mr. Levy,

I have had the second roll of music which you sent me some weeks already and have not yet thanked you for either that or the first one which you sent me; what must you think of me? Please do not think I do not appreciate them, indeed I do, and intended telling you so long before this, but always kept putting it off till now I am almost ashamed to write. I hope you believe in the old saying "better late than never", and so will excuse my tardiness. It is so kind of you to think of sending me music, you know how much I enjoy it

in any shape or form, but particularly the compositions of a friend who though far away, always remembers his "amigo da Mooca", thank you so much for it. Mama also received the roll you sent her and sends to thank you and say that she will write as soon as she has time. All you sent are very pretty but my favourite is the Minuet. Dona Adelaide Palston, I should say Fonseca, played the gavotte you dedicated to her, and also the one you dedicated to the Countess della Selva, they are both so pretty. You must work very hard to get so much composed, how many have you composed all together? Someday when you have time will you send us a list of them, I should like to have it.

Tell Paulina I received her nice letter some time ago and will try to answer soon; in the meantime I enclose a great many "saudades" in this for her. Remember us to your father and mother and brother also, and wish many best wishes for yourself in which all join and again thanking you I remain
Yours sincerely
Calaly Harrah
